832 FOX HD WFSL
810 HBO HD *
811 Showtime HD *
812 STARZ HD *

*requires HBO/Showtime/STARZ subscription

What is HDTV?

HD Television is a high-resolution digital wide-screen format with twice the color resolution, six times sharper picture and enhanced Dolby digital audio. Digital TV's, Flat Screen or Plasma TV's are NOT HD "capable" sets. The TV must show the HD Logo. In Tifton a HD Digital Console is required to actually receive HD channels. All channels will look great on a Digital HD set but without actual HD programming you will not "see" the HD quality your HD set was designed to provide. The quality difference in a HD picture and sound compared to a regular TV can be compared to the difference in watching a movie on a VHS tape compared to a DVD.

What do I need for HDTV?

- An HD "ready" TV set
- A CityNet HD Digital set-top-box
- Subscription to CityNet HD channels (HD Tier)
- You can receive local Broadcast Networks in HD (CBS, NBC, FOX) at no additional charge with with subscription to any Digital Select or HD Tier Package.
